OPEN
DAVID PRICE

"OPEN is a revelation."
Sir Ken Robinson

HOW WE'LL WORK,
HOW WE'LL LIVE AND LEARN
IN THE FUTURE
THE FUTURE OF INNOVATION IS OPEN
GLOBAL CHALLENGES THAT YOUNG PEOPLE WILL FACE INCLUDE:

- GEOPOLITICAL INSTABILITY: More people have died in war and conflict in the last 60 years than were killed in the First and Second World Wars combined.

- GROWING INEQUALITY: Wealth is becoming increasingly concentrated in the few - widening the economic divide.

- ADAPTATION TO CLIMATE CHANGE: In the absence of global climate action, 100 million people will be displaced by 2050.

- SUSTAINABILITY OF RESOURCES: Consumption has become the first priority, putting pressure on natural resources.
What change can you make today?

Schools must find ways to keep young people engaged enough to develop a lifelong love of learning that will follow them on any path they choose to explore. But schools can’t take this on alone.
Teams and Systems Thinking

"94% of problems in business are systems driven and only 6% are people driven."

~ W. Edwards Deming

1900 - 1993
If we teach today's students as we taught yesterday's, we rob them of tomorrow.

- John Dewey, 1915
